

Automate, Digitize and Transform the Way People Bank

Take a tour of DN's latest software, services and systems technology, at the convenience of your location, through our unique Virtual Workshops.

As social distancing changes the way consumers engage, leveraging banking technology to gear-up for the “new normal” has become more important than ever. We're here to help you stay on top of the latest developments in banking technological, with a new way to engage: now you can participate in one of our unique Virtual Workshops & Demo experiences.

Each Virtual Workshop is tailored to your unique business requirements. You can participate from your office, home or any other location, and engage with experts from DN to explore what's next in the Connected Commerce journey.

Our workshops are journey-centric, enabling you to look at solutions through the lens of your consumers, your staff and the critical small and medium business (SMB) segment, with workshop topics that include:

- Personalizing Consumer Experience
- Next-Gen Payments
- Security & Availability
- DN Series™ Deep Dive
- DN AllConnect Services™
- Digital Banking
- DN Vynamic™ Software Deep Dive
- Cash Supply Chain Optimization
- And much more

of banked respondents said they have **changed the way they interact with their banks** since the coronavirus outbreak.

At Diebold Nixdorf, we're relentless in our mission to transform the way people bank and shop. The Virtual Workshop & Demo experience is our latest platform to engage with banks and retailers across the globe. Through Virtual Workshops, attendees will be able to:

Experience the latest in Connected Commerce technology, at the convenience of their preferred location

Brainstorm ideas and stay prepared for current and future business needs

Participate in tailor-made, engaging sessions of 90–120 minutes

Get a sneak-peek at our Experience Center and plan a future in-person visit

Engage with DN Subject Matter Experts (SMEs) from global Customer Experience Centers such as North Canton, U.S.A., Utrecht, The Netherlands and/or Paderborn, Germany

Engage via the collaboration channel of your choice: Zoom, Microsoft Teams, WebEx, Skype, etc.

Experience future-ready end-to-end banking journeys

As we look to the future of banking, the focus today should be on removing challenges and friction along every step of the consumer journey, and anticipating consumers' needs by "knowing," "showing" and "wowing" them at each stage.

Our virtual workshops empower your team to experience the latest technology in self-service systems, software, services, payments, branch transformation, mobile, security, availability and much more.

Make the most out of this opportunity to digitally engage with us, brainstorm real-life ideas and leverage the technical expertise of our SMEs to help build your organization's strategic roadmap.
